

JP Taravella Band and Orchestra Tree Planting Program

If you have a passion for the Environment, here is a great way you can help.

The **J.P. Taravella Band and Orchestra** program, in cooperation with the **Department of Agriculture**, is participating in a re-forestation project. Volunteers from J. P. Taravella High School will be planting 1000 trees locally in the spring of 2009, at a site selected by the Department of Agriculture.

You may have one or more trees planted in someone's honor, memory, or as a gift. The cost is \$10.00 per tree and an attractive certificate will be provided naming any organization or person you wish. In addition to contributing to this outstanding music program, you will be helping the environment by replacing trees that were either damaged by hurricanes or fires. This positive effort will help support these talented students while strengthening our environment.

To participate, please complete the following section:

Total Trees _____

Dollar Amount _____

Check Number _____

Cash Received _____

Name of Buyer _____

Name(s) on certificate: _____

Certificates may be mailed. Please provide an address below:

Street Address _____

City, State, Zip _____
